# MAGEWELL

Pro Convert IP Converter

Quick Start Guide

## Packing List

1x Pro Convert IP Converter

1x Quick Start Guide

1x USB Type C to Type C cable

1x USB Type C to Type A cable

1x Power Adapter

1x Fishtale Bracket

1x Bracket Fastener

2x M4*12 Black Screws
2x M4 Black Nuts

Starting to Use

1. Pre-configure the Device

① Connect the device's CONFIG port to the computer using the provided USB cable.
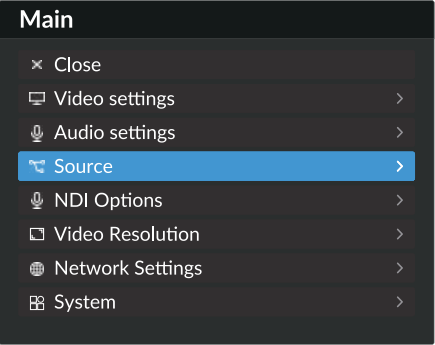

② Log in to the Web GUI

- Type the USB NET IP address 192.168.66.1 in your web browser.

- Log in with the default case-sensitive username and password (both Admin). You are suggested to change the password after the initial log-in.

③ Specify the video and audio processing parameters, add streams to be decoded, set layout, and set the IP address, if required.

④ Then the basic configure is all set. You may remove the USB cable from CONFIG port.

Cable connections diagram

2. On-site Cable Connection

- Connect to the network and the decoding output device.

- Power the decoder via PoE/PoE+ or a direct power adapter.

3. Select a Source

- Switch the decoded source via Web GUI.

- Press the menu button on the front panel to call up the on-screen menu for quick switching.

4. More Information

- Detailed usage guidelines, go to magewell.com/s/um-pcid

- API is also available for obtaining basic information about the device, modifying device configuration and upgrading firmware. Go to magewell.com/developer

Warranty

The duration of the free limited warranty is two (2) years for the Pro Convert family and one (1) year for the accessories. For detailed warranty information, refer to www.magewell.com/quality-assurance
